Card On/Off

This feature lets you take control of your Casey State Bank MasterCard® Debit Card and protect against unauthorized use. An example:

If you have misplaced your card, turn it to the Off position. If you find it, and feel your account has not been jeopardized, turn it back On and continue to use your card or;

If you use your card infrequently, or are traveling without your card, turn it OFF. Then turn it on when you are ready to use. You are in control. Your mobile application shows you whether your card is On or Off.

Turning your card Off only impacts future debit card (point of sale and ATM) transactions. Any previously authorized transactions will be paid, and any recurring transactions you had previously set up will still occur. Turning your card Off will not affect your checks, mobile or internet transfers, bill payments, or any other type of transactions in your account(s).*

**In all situations it is your responsibility to review activity in your accounts for propriety and to assure that any scheduled or recurring transactions occur when your card is Off.*

Mobile Banking Transactions

A. Account Access: You may access to view all of your accounts you designate for Mobile Banking Services.

B. Transfer of Funds: You may use Mobile Banking Service to conduct the transfer of funds. You may perform immediate transfers between accounts or schedule future transfers between accounts. If there are not sufficient funds in the account, we cannot complete the transfer. However, future transfers will not be impacted. You are advised to check your recurring transfers at the beginning of each month and adjust the process date where necessary.

Limitations: Because regulations require the Bank to limit preauthorized transfers (including Mobile Banking transfers) on Savings and Money Market accounts, you can make no more than six (6) transfers per month by preauthorized or automatic transfer or by telephone or Online Banking for these types of accounts.

C. Bill Pay Access*: If you are a Bill Pay Customer, you may schedule payments or transfers through your Mobile Device for any Payee that has been previously set-up through the Bill Pay system. New payees cannot be added through your mobile device. New Payees may be set up through the Bill Pay system.

** To gain access to Bill Pay using Mobile Banking you must first register for Online Banking and Bill Pay.*

Additional Services: New services may be introduced for Mobile Banking access from time to time. The Bank will notify you of the existence of these new services. By using these services when they become available, you agree to be bound by the rules that apply to these services.

Fees

The Bank offers the benefits and convenience of the Mobile Banking Service to you free of charge. Any fees associated with the use of your Mobile Device will still apply.

Use of Electronic Mail (Email)

If you need to report an unauthorized transaction from one of your accounts, you should not rely on sending the notice to us by email. Email transmissions through public or general email are not secure. We advise you not to send us or ask for sensitive or confidential information such as Account Numbers, Passwords, Account Information, etc. via any general or public email system.

SMS (Text) Mobile Banking

(This service is not currently available)

Listed below are the Mobile Banking commands available for your use with Mobile Banking. We may change these commands from time to time. The most current list of commands is available at www.CaseyStateBank.com.

To initiate a text message (command), send a text to MOBANK or 662265 using one of the following requests:

- BAL – returns the balance of the default account
- BAL ALL – returns the balance for all accounts registered for mobile banking
- BAL [alias] – returns the balance for the account using the alias
- ACT – returns the activity for the default account
- ACT [alias] – returns the activity for the alias account
- CMD – returns short list of commands
- HELP – provides a phone number for support
- STOP – stops mobile banking text services

Upon receipt of the text message (command), the information requested is sent to the registered mobile device. All accounts registered for the SMS (Text) feature of Mobile Banking must have a unique alias which is used to identify the account. The alias is used when requests are sent to determine what account information is returned. The alias is sent in the return message. When an alias is not used in the request, information for the account designated as the default account will be returned. The alias may not match the account number, contain spaces or special characters.

Each user will be allowed to register only one Mobile Phone number.

Do not use the same alias used for any other Mobile Banking service at Casey State Bank or any other financial institution to ensure correct account information is returned as requested.

Note: A text messaging signature stored on your mobile device cannot be used in the text message when using the commands above. The system reads the signature as an alias and you will not receive the information requested.

To stop all mobile access, text STOP to MOBANK or 662265.

You will never receive a text message from Casey State Bank asking you to send any sensitive personal or financial information such as your social security number or your account number. If you ever receive such a request for sensitive personal or financial information, do not respond to the message and call us at 866-666-2754 to report the incident.
