Casey State Bank offers Remote Deposit Capture Services!

If you're like us, your schedule doesn't always fit into the Monday to Friday, 9 to 5 mold. That's why we offer the convenience of Remote Deposit Capture, so you can deposit checks right when you get them, any time, from any location. All you need is a computer, a CSB scanner and an Internet connection.

While we're always happy to see you, we also want to free up you and your staff to focus on what matters most – serving your customers and growing your business. With Remote Deposit Capture, checks are in your account faster, and you say goodbye to courier fees or making multiple trips to the bank.

What is Remote Deposit Capture?

- Remote Deposit Capture (RDC) allows business customers to make deposits from a remote location. Make your deposits with ease from your own office.

How Does Remote Deposit Capture Work?

- CSB will deploy a scanner to your business location and you will scan your deposits directly to your account at CSB without having to physically take the checks to a Branch location.
- The Business Services Department will set up a face-to-face meeting and make an onsite visit to any location(s) that will be utilizing RDC services to ensure all equipment is compatible.
- You will then be able to transmit checks for deposit from anywhere, at any time, 24-hours a day, 7 days a week. Deposits transmitted to the bank after bank business hours or on bank non-business days will be deposited into your account the next bank business day.

Make your banking more efficient with RDC!

If you would like more information, contact a CSB Loan Officer at 217-932-2136. Additional fees apply.
